

NEXT-GEN WEB3 LIQUIDITY & NODE PROTOCOL

Executive Summary

CryptoEarnerX is a decentralized ecosystem engineered for high-velocity network growth. By integrating a **POL-based Node Architecture** with a unique **6x Multiplier Cap**, we ensure protocol sustainability while offering unlimited earning potential through our proprietary Locked Fund carry-forward system.

Strategic Node Infrastructure

The protocol utilizes dynamic Node Units that define a user's participation tier and earning velocity.

Official Whitepaper

- ✓ **Single Node Policy:** 1 User = 1 Active Node to maintain network integrity.
- ✓ **Upgrade Dynamics:** 70% of current node value adjusted; 30% new liquidity required.
- ✓ **Reset Mechanism:** Upgrading a node resets the earning cycle for maximum efficiency.

📈 The 6x Capital Multiplier

To ensure protocol longevity, every active node operates under a strict **600% (6x) Earning Cap**.

- ✓ **Total Exposure:** Includes self-earnings, referral bonuses, and unlocked funds.
- ✓ **Overflow Protection:** Any earnings exceeding the 6x limit are automatically diverted to the **Locked Fund**.
- ✓ **Zero Loss Policy:** Funds in the Locked balance are never lost; they are carried forward to the next node cycle.

🔒 Wealth Distribution & Unlock

We empower non-node users to earn, while incentivizing protocol participation via our unlock mechanism.

- ✓ **Passive Accrual:** Users without an active node can still accumulate rewards in their **Locked Balance**.
- ✓ **Gradual Liquidity:** Activating a node initiates a **~45-day** funds **Gradual Unlock**.

 [Official Whitepaper](#)

- ✔ **Strategic Payout:** Unlock speed is optimized to prevent market volatility and ensure platform stability.

Network Expansion (Affiliate)

Our 3-tier referral engine rewards community architects based on direct and indirect influence.

Level 1 (Direct)

5%

Level 2 (Indirect)

2%

Level 3 (Network)

**All referral bonuses contribute toward the 6x Node Cap and follow the standard unlock protocol.*

Future Utility & Ecosystem

Beyond networking, CryptoEarnerX is building a multi-utility environment:

- ✔ **CEX Token:** Our native utility token for internal transactions.
- ✔ **AI Academy:** Educational suite accessible via platform participation.
- ✔ **Prediction Pools:** Daily high-reward pools (3 attempts/day) restricted to active Node Holders.
